Costa del Sol East, Frigiliana

Do not miss this opportunity to buy a dream plot, it has the right to 1 million liters of water per month and has the possibility of building 2 small houses, one of 40m² and the other of 30m². The property is terraced and has about 100 avocado trees of the bacon category that are currently out of production, but could be recovered. The plot has 2 plots ready for the construction of the tool houses, therefore there would be no need to make expensive earthworks. The access is almost entirely asphalted and only has a short stretch of land, but it remains in good condition. We are delighted to be able to present this property to you soon, either personally or via virtual viewing. Because this world is unique - like our Axarquía. In Andalusia. On the Costa del Sol. Here, on the sunny side of life...
