Axarquía, La Viñuela

Villa Jorge is an interesting 2 storey property situated at the end of a cul de sac in the popular Puente Don Manuel area. It is essentially an “up side down” villa, having the bedrooms on the ground floor and the living areas on the upper storey. There are electric gates which lead into the front of the property where there is off road parking and a large store room. 3 Bedrooms are located on the ground floor, all having built in wardrobes and A/C. Several of the windows have been upgraded to double glazing. There is also a shower room with WC. Downstairs there is bedroom 4 which again has built in wardrobes and A/C, and benefits from a very large walk in wardrobe and shower room. On this level there are 2 lounges, the first being the internal lounge complete with patio doors and access to the second lounge / conservatory which leads out to the pool and garden. The modern kitchen diner opens to the exterior of the property which has a 6 x 3m pool and space for outside entertaining. The outside area benefits from several storage units, workshop, a gym and an aviary. For the bird loving, DIY enthusiast, Villa Jorge ticks the boxes! Ask for more details.....
