Valle del Guadalhorce, Álora

Large plot in the prestigious Canca area of Alora with fantastic views. This large plot of 30,000 m2 planted with almond trees can be reached via a good road with only the last stretch of dirt road. There was once a project to build a large almacén there, but the permit for this has unfortunately expired. Maybe this can be activated again. Electricity is nearby but there is no water at the moment and will have to be installed. A plot with potential for the future.
