Majestic building built in 1850 located in the heart of Tarifa, on the most prestigious and busiest street, thus giving it a perfect location. You currently do not have permission to convert this historic gem into a boutique hotel or similar.

Divided into three floors, this 1,200 m² building is run by a main patio that collects the light emanating from the skylight, thus harmonizing each floor with natural light and open spaces, creating a very pleasant feeling of spaciousness.

On the main floor we find the imposing hall presided over by a fountain, various spaces or rooms that connect with each other and several warehouses or areas to be converted. Next, the first floor consists of a stately living room, the large main dining room, an office area, a kitchen and a small dining room, two living rooms or bedrooms and a separate area that has two bedrooms, a full bathroom, a living room that it overlooks a nice interior patio.

The top floor has a large full bathroom, seven double bedrooms, two guest toilets, a laundry area, a terrace and access to the roof terrace that gives us panoramic views of Tarifa.

The infinite spaces between the rooms that connect with each other, the large roof terrace, the marble and hydraulic tile floors and the high ceilings are some of the details that stand out in this historic building.
