Land for sale in Yecla, Yecla

570.000 €

Referentie: RS23146 **Plotgrootte:** 600.000m^2

Altiplano, Yecla

600,000m2 of land for sale, with water supply of 100,000 liters per year, there is also electricity. The possibilities with this land are endless. You can plant olive trees, but it is also suitable for the installation of a solar panel park. Currently there are grape vines on a part of the land, this could also be expanded. Furthermore, there is almost no vegetation. There are two small buildings, in one of them you will find the pump for the water supply, and there is also electricity. These buildings are legalized. You can built a house here as well.
