Here you will live with plenty of space for the whole family, with a feeling of light, space and harmony that permeates every room. The entrance level welcomes you with a generous amount of light, where the living room, dining room and kitchen meet in an open and social layout. Two of the home's five official bedrooms are located here, perfect for guests, a home office or for younger children. On this level you will also find one of the four stylish bathrooms – all decorated with modern finishes and carefully selected materials. Upstairs are the more private parts of the home, with three more bedrooms. The large master bedroom offers its own walk-in closet and an elegant en suite bathroom – a haven of peace and privacy. From here you also reach a sunny balcony with views of the garden, and on the floor there is another terrace where morning coffee tastes extra good in the eastern sun. The villa's 585 m² garden is a lush oasis with plenty of space for both play and relaxation. The private pool invites you to take a refreshing dip on hot days, and there are several patios around for dining, conversation and all summer occasions. The plot is surrounded by lush vegetation that creates a sense of privacy and tranquility. The basement of the house, with its own entrance, contains an additional 111 m² – here are three additional bedrooms, a bathroom and a practical laundry room. These spaces are not registered in the title deed but provide fantastic opportunities for larger families, multi-generational living or why not a separate guest area or studio? The entire home has central heating and central air conditioning, which provides an even and comfortable indoor climate all year round. There is plenty of storage with built-in wardrobes and a separate storage room, and the car is conveniently parked in the private driveway. This villa is more than just a house – it is a home to grow in, to gather in, to live in. A home where every detail is well thought out and where both everyday life and celebrations find space. Here, there is quality of life in every square meter. Welcome to experience it on site.
